

Please prepare your quilt as follows before you send it!

Backing and quilt top must be squared with straight edges and all stitching secure. You should **stay-stitch** 1/4" from the edge if the border is pieced or bias. Flared borders can result in puckering during the quilting process. If you need to piece the **backing**, remove the selvage prior to piecing and if possible, piece **horizontally** instead of vertically to eliminate puckering.

- Snip off all "rat-tails" (threads sticking out through pieced seams) and remove threads stuck to the batting.
- Batting and backing must be **10 inches** longer and **10 inches wider** than the quilt top. (5" each side), or, if you choose to add a temporary (false) border to the backing, use a long basting stitch for easier removal.
- Press the top and the backing with seams to one side, unless using heavy material.
- Please do not pin or baste quilt layers together.
- If your quilt is directional, mark the top or backing clearly to indicate which way is "up".
- Please place your quilt in a clear plastic bag so I can see your quilt and the work order without opening the bag.
- Please note that there is a \$30/hr charge levied if you would like me to do any of the above for you.

Hand-guided machine quilting requires good eye-hand co-ordination as well as an artistic sense as to which patterns go well with different quilt designs. If you have a particular pattern in mind, please talk to me about it., so that I can help you decide on the optimum quilting designs for your quilt.

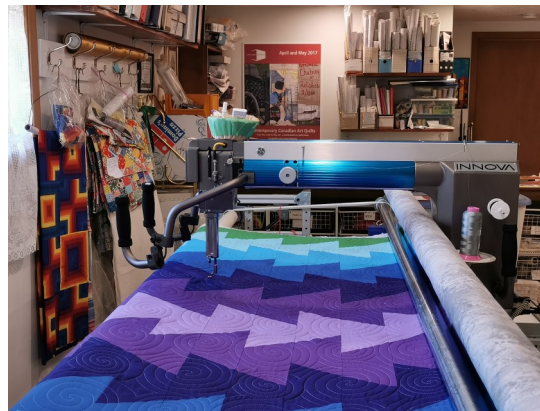

If I don't have something to your liking in my repertoire, I would be glad to order a commercially available pantograph pattern or create a custom design for you.

* * * * *

Some designs can be used for overall quilting designs as well as for borders.

Please ask about other designs not shown here, including perfect circles, medallions and many other designs made with the Circle Lord.

Visit the Circle Lord website at www.loriclesquilting.com

Call for an appointment and allow 20-30 minutes for your free consultation.

**Custom
Long-arm
Machine Quilting**
by
Joan Hug-Valeriotte

**You have too many UFO's and
not enough finished quilts?**

**You are a new quilter and just
took a workshop, but you don't
know how, or you don't have
the time to hand quilt it?**

**I can finish it for you on the
long-arm quilting machine.**

**If you are a hand quilter, I can
baste it flat and secure, ready
for you to hand quilt, saving
hours of tedious basting by
hand.**

Definition of services available:

Edge-to-edge quilting :

a simple pattern, such as large stippling or meandering, repeated over the entire surface of the quilt, including borders.

Price: **\$4.00** per square foot.

Simple custom designs:

Other than simple meandering, edge-to-edge pantograph patterns, echo quilting around appliqué, simple continuous designs . Price: **\$4.50-\$5.50** per square foot, depending on the density of stitching.

Complex custom designs:

More intricate patterns **from \$6.00** per square foot, depending on the complexity of the design desired. Some may be pantograph patterns with special positioning on the quilt, while others may be unique freehand and/or Circle Lord designs.

**Mounting fee and Custom Borders
(remounting fee):**

Lap quilt, single bed size \$ 25.00

Double, Queen and King size \$ 35.00

For very small quilts, it is included in the **minimum** charge of **\$75.00** per item

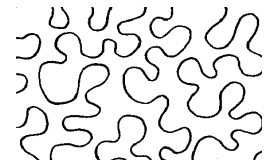

Basting: small / single bed \$50.00
queen / king \$75.00

Batting: I usually carry **Hobbs 80/20** in stock, 120" wide. In most cases, you can determine how much you need by adding 12" to the width of your quilt.

To determine the size of the area to be quilted in square feet, multiply the length by the width in inches and divide by 144.
